

TOSHI JAIN

Python Developer · Full-Stack Engineer · Machine Learning Enthusiast

✉ jaintoshi15@gmail.com | 📞 +91 63781 25112 | 🔗 linkedin.com/in/toshi-jain | 🐙 github.com/ToshiJain15 | 🌐 Portfolio

Professional Summary

Results-driven Full-Stack and Python Developer with **2+ years** of professional experience architecting scalable backend services and responsive front-end interfaces across **fintech, education, and enterprise** domains. Expert in **Python** (Flask, Django, FastAPI), **React.js**, and **PHP/Laravel**, with a strong foundation in REST API design, CI/CD automation, and relational databases. Gold Medallist MCA graduate (CGPA 8.93/10), **UGC-NET qualified**, and certified in **Microsoft Azure AI** and **Oracle Cloud Infrastructure**. Consistently delivers measurable impact: 25–40% performance improvements, automated multi-hour manual workflows, and zero-rollback production deployments.

Professional Experience

Tata Consultancy Services (TCS)

Python Developer — Sodexo Client Engagement

📍 Noida, Uttar Pradesh

📅 Sep 2024 – May 2026

- Led migration from deprecated Azure AD APIs to Microsoft Graph APIs, ensuring uninterrupted enterprise identity-management and authentication workflows.
- Investigated and resolved production issues involving user provisioning, UPN validation, and permission synchronization, improving platform reliability and reducing recurring support incidents.
- Developed and maintained Python-based automation scripts and backend services supporting cybersecurity and access-management operations for Sodexo internal platforms.
- Performed PostgreSQL query analysis and troubleshooting for service requests, accelerating issue resolution and improving operational efficiency across business-critical workflows.
- Collaborated with cross-functional teams to perform root-cause analysis, implement fixes, and validate production deployments while meeting SLA commitments.

Stack: Python, Microsoft Graph API, Azure AD, MySQL, REST APIs, Azure DevOps

Continuous Excellence (CE)

Web Developer — BIMSU, MineInfo & ME-Website

📍 Jodhpur, Rajasthan

📅 Jan 2024 – Aug 2024

- Engineered **3 responsive React.js applications** (BIMSU, MineInfo, ME-Website) serving **500+ concurrent users**, accelerating project delivery speed by **20%**.
- Designed and implemented a custom FastAPI data-transformer middleware layer, reducing large-scale data-ingestion latency by **40%**.
- Optimised component-level rendering and bundle sizes across all three products, slashing initial page-load time by **35%** through targeted performance profiling.

Stack: React.js, FastAPI, Python, HTML5, CSS3

NBNminds

Web Developer — Vector, Bursary & Golf Projects

📍 Jodhpur, Rajasthan

📅 Mar 2022 – Feb 2023

- Developed core features for the Vector no-code platform using Svelte and Laravel, contributing to a **15% reduction** in client onboarding time.
- Automated cron-job reporting for the Bursary project, eliminating **8+ hours of weekly manual effort** and reducing reporting errors to near zero.
- Executed complex MySQL schema migrations for the Golf project, improving query performance by **20%** and measurably reducing page-load latency.
- Designed modular CRUD APIs with optimised indexing and cursor-based pagination, reliably supporting **100,000+ records** without performance degradation.

Stack: PHP, Laravel, Svelte, MySQL

Education

Lachoo Memorial College of Science and Technology

Master of Computer Applications (MCA) — CGPA: 8.93/10 (Gold Medallist)

📍 Jodhpur, India

📅 Aug 2022 – Jul 2024

Aishwarya College of Education

Bachelor of Computer Applications (BCA) — 78.5%, Honours

📍 Jodhpur, India

📅 Jul 2019 – Jul 2022

Projects

Jodhana — Full-Stack Community Web Application

🐙 [GitHub](#)

- Built a community platform using PHP/Laravel with role-based authentication, content workflows, and a fully normalised MySQL schema (**12+ tables**), achieving sub-100 ms query response times under load.
- Resolved **15+ deployment issues** and streamlined the onboarding process, reducing new-contributor environment-setup time by **50%**.

Stack: *PHP, Laravel, MySQL, HTML5, CSS3*

OpenCV Computer Vision Suite — *Real-Time Monitoring System*

 [GitHub](#)

- Implemented a real-time face-detection and social-distancing monitor in Python and OpenCV capable of processing live video at **25+ FPS**; proximity-alert logic achieved **92% detection accuracy**.

Stack: *Python, OpenCV, NumPy, Jupyter Notebook*

Machine Learning Projects Collection — *Predictive Modelling Suite*

 [GitHub](#)

- Built COVID-19 forecasting and house-price prediction models (Scikit-learn) achieving $R^2 > 0.85$; developed an ad click-through classifier reaching **88% accuracy** via gradient-boosting pipelines.

Stack: *Python, Scikit-learn, Pandas, Matplotlib, Jupyter Notebook*

Potato Post — *Django Social Platform*

 [GitHub](#)

- Delivered a full-featured Django social platform with authentication, posts, likes, and user profiles; optimised static-file serving to achieve a **30% reduction** in page-load time.

Stack: *Python, Django, SQLite, HTML5, CSS3*

Technical Skills

Languages: Python, PHP, JavaScript (ES6+), SQL

Frontend: React.js, Svelte, HTML5, CSS3, Bootstrap, Tailwind CSS

Backend & Frameworks: Flask, Django, FastAPI, Laravel, SQLAlchemy

AI / ML: Scikit-learn, OpenCV, Pandas, NumPy, Matplotlib

Databases: MySQL, MongoDB, SQLite

DevOps & Tools: Azure DevOps, Git, Postman, VS Code, Jupyter Notebook, Linux

Certifications & Achievements

- **UGC-NET Qualified** — Computer Science & Applications (2024)
- **Gold Medallist** — MCA, Lachoo Memorial College of Science & Technology (2024)
- **Microsoft Certified:** Azure AI Fundamentals (Jun 2023)
- **Oracle Certified:** Cloud Infrastructure Architect Associate (May 2023)
- **Cambridge English Level 1 Certificate** in ESOL International (Jan 2020)
